

Science is Fun!

Seeking K-5 science fair classroom volunteers
One hour orientation April 15 & 20

Sierra Watershed Education Partnerships (SWEP) is looking for parent volunteers willing to help classrooms conduct their science fair experiment. Not familiar with science concepts or the scientific method? No problem! We will teach you in a one hour orientation training.

Sierra Watershed Education Partnerships (SWEP) is looking for parents willing to help guide small groups in science fair experiments. Students will be engaged through whole school assemblies with grade level projects, conducted with SWEP support and culminating with a science fair show case and expo.

Assembly/Classroom Schedule

April 27 North Tahoe (tentative)

May 3 Tahoe Lake

May 10 Kings Beach

Projects and a Science Expo will be displayed at each school's Open House.

Dates: April 15, 4-5pm Tahoe Lake Elementary

April 20, 5:15-6:15pm Kings Beach Elementary

This training is for parents of any K-5 student attending Kings Beach, Tahoe Lake or North Tahoe School.

RSVP to Christine McMorow

Sierra Watershed Education Partnerships (SWEP) P.O. Box 1602 Tahoe City, CA 96145

Science Fair volunteers will:

- help students discover the scientific method
- guide small groups within a class to help them conduct an experiment with variables
- help students collect, record and analyze their data
- contribute to fun and learning in the classroom
- establish a foundation for the future of science fair in our schools
