

# Exploring California Biodiversity

*Berkeley Natural History Museums GK-12 Outreach Program*

*....to inspire in children, an appreciation for the overwhelming diversity of life and a recognition that biodiversity is not confined to the rainforests of exotic places, but exists even within their own school yards.*

## Enhancing Academic Standards Through Exploration of California's Biodiversity

K-12 Teacher workshop at Sagehen Creek  
Field Station:

August 20-21, 2007

 Explore the biodiversity of California and the Sierra Nevada with experts from UC Berkeley's Natural History Museums

 Learn ways to incorporate CA content standards through interdisciplinary activities that engage children in the process of science and discovery

 Visit the UC Berkeley Natural History Museums' beautiful Sagehen Creek Field Station

 Receive professional development credit through UC Berkeley

This workshop is funded by the National Science Foundation's GK-12 program. For further information contact Betsy Mitchell (510 643-7426, [betsyjm@berkeley.edu](mailto:betsyjm@berkeley.edu)), or Christine McMorro (530-525-9457, [christine@4swep.org](mailto:christine@4swep.org)).
