## How did we get where we are?

- Why do we have a crisis in our forests?
- Compare and contrast the Natural Forest of 150 Years Ago and the Modern Forest
- Describe how the forest was, including fire management, growth, and forest descriptions. Explain what we have now: trees, homes, fires, etc.

\*\* This should take up these two panels, you may spread across both or list each panel as a separate subject.

10 points

## Defensible space

- Definition
- Summary of what anyone living in the Truckee area should and can do, whether they live in a home, apartment or mobile home

10 points

## Discuss or define or give tips in each of these categories:

### *Removal*

Must include ladder fuels, what to remove, what to keep, how to decide, etc.

### *Reduction*

What to keep, yet make the area fire safe

### *Replacement*

What can be replaced? Are there choices

These topics can continue on to the next panel.
